

INDEMAND

Interpreting

- 01 **GREATER ACCESS:** Over 200 languages, one click away
- 02 **ENHANCED EFFICIENCY:** Connect in seconds to certified medical interpreters
- 03 **IMPROVED OUTCOMES:** Higher patient satisfaction and reduced re-admission rates

Medical Interpreting Has Never Been Easier.

Instantly Connect Patients and Healthcare Providers Face-to-Face with Experienced Medical Interpreters through InDemand's iPad App

With the InDemand Interpreting iPad App, instant access to high-quality Video Remote Interpreting (VRI) for limited English proficient (LEP) and Deaf patients is just a swipe and a tap away. Built on the Vidyo platform, InDemand Interpreting's iPad App features sharp HD video and rich sound for clear intelligible conversations. Instant language access means no more waiting for on-site interpreters or scheduling challenges. Simply connect via your WiFi or mobile broadband wireless network for high-definition, fast, secure and economical access to highly trained and medically experienced ASL and LEP Interpreters.

See the future of medical language services with Video Remote Interpreting on the iPad from InDemand Interpreting.
